INSTRUCTOR**Chiemi Moriguchi,
Mizuho****START DATE****April 9, 2026****LEVEL****beginner****FORMAT****5 live sessions**

Overview

Welcome to AI Essentials — your starting point for learning AI. In five weeks, you will go from curious to confident. Every class is live, hands-on, and designed so you walk out having done something real with AI.

- Japanese business professionals who want to understand and use AI in their daily work
- Professionals with no prior AI experience looking for a practical, hands-on starting point
- Bilingual professionals who want to leverage AI for cross-cultural communication
- Team leaders exploring how AI can improve their team's productivity and workflows

Prerequisites

No prior AI experience required. Students need a laptop with internet access and a Chrome browser. Free accounts on ChatGPT and Claude should be created before Week 1.

Learning Outcomes

- Identify which AI tools matter for your career and skip the ones that don't
- Use AI to complete everyday work tasks: writing, research, translation, and planning
- Ask AI better questions and get dramatically better results
- Use AI to improve meetings, emails, and team communication
- Set up a personal AI assistant configured for your specific job
- Create a clear AI action plan for continued growth after the course

Tools & Technologies

ChatGPT

Claude

Perplexity

Curriculum

Week 1 The AI Tools That Matter

(Foundation)

Session 1 The AI Tools That Matter

live · 60 min

#What AI actually does today

- The simple, honest version of AI capabilities
- Separating hype from reality

#The Top 10 AI tools professionals are using right now

- Live demos of ChatGPT, Claude, Perplexity, and more
- What American companies are actually doing with AI every day

#Guided setup and first AI tasks

- Open ChatGPT and Claude together as a class
- Your first AI tasks: ask, translate, summarize

Assignment: Try Three Tools

Week 2 Make AI Do Your Work

(Foundation)

Session 1 Make AI Do Your Work

live · 60 min

#AI for writing and communication

- Write and edit emails, messages, and documents with AI
- Research any topic in minutes instead of hours

#AI for translation and analysis

- Translate between English and Japanese naturally
- Summarize long documents, articles, and reports

#Creative AI and better prompting

- Brainstorm ideas, plans, names, and strategies
- How to ask AI better questions — simple tips, instant results

Assignment: Complete 5 AI Tasks

Week 3 AI at Work — With Your Team

(Building)

Session 1 AI at Work — With Your Team

live · 60 min

#AI for daily work routines

- Use AI to organize your morning in 2 minutes
- Draft, reply, and translate professional emails

#AI for meetings and team communication

- Prepare meeting agendas and write follow-up notes
- Handle bilingual team communication faster

#Practical exercises

- Prepare for an English meeting, summarize a report, reply to a confusing email
- How American teams use AI every day — examples you can adopt

Assignment: AI Work Diary

Week 4 Build Your First AI Tool

(Application)

Session 1 Build Your First AI Tool

live · 60 min

#Understanding personal AI assistants

- What a personal AI assistant is — a coworker who knows your job
- How it differs from regular AI chat

#Building your assistant step by step

- Build yours in 15 minutes — step by step, everyone together
- Tell AI about your job, industry, and how you communicate

#Testing and improving

- Test it with a real task and see the difference
- Add company info, set language preferences
- Show and tell: share what you built with classmates

Assignment: Use Your AI Assistant Daily

Week 5 Your AI Action Plan

(Mastery)

Session 1 Your AI Action Plan

live · 60 min

#Reflection and celebration

- Your favorite AI win from the past 5 weeks
- What's coming next in AI — the simple version

#Building lasting habits

- The one habit that keeps you ahead: 10 minutes a week
- Create your personal AI action plan: 3 tools, 3 goals, 3 months

#What's next

- Preview: AI Mastery (Level 2) for those who want to go deeper
- Certificate ceremony — you earned it!

Assignment: Personal AI Action Plan
